Speaker notes

Concentrated ownership predicts higher payout.

- Open on the puzzle.
- Point at the trend line.

The panel spans 1994 through 2019.

- Now that the trend line is made, turn to the panel behind it: say why the edges are unbalanced.
- Do not read the table.

Blockholders raise dividends by four points.

- Now that the table is left unread, turn to the result: give the point estimate once.
- Then move to the event study.
